

QUALITY RECYCLING EQUIPMENT, INC
Solving Tomorrow's Environmental Problems Today

March 14, 2007

Information Release:

Yesterday we had a Site assistance visit at our office from Mr. Harry W. Heinlein, P.E. of the Texas Commission on Environmental Quality. Mr. Heinlein has studied our RCBC Technology, and after his research he gave approval for our technology. He will make recommendations to businesses in Texas, and in the surrounding areas to look at our Boiler system as a viable alternative energy source for Utilizing waste fuels for power.
